

## **1Foot**

### **V1**

1 Foot gets put in front of the one  
That comes after the one I just put down to get around

Look out and have no doubt It was me that you heard shout  
And sing off key like I don't care cause it's free air

And I recognize all the times I've compromised  
And I've made halfhearted tries. That was then but not again

Go on ya best be gone, if you don't want to get along  
So what if it might be wrong, I might be strange but I won't change

### **Chorus**

Move it or lose it  
Hurry up and choose it  
I can make it happen either way

My feet won't retreat  
I be sour I be sweat  
I am what I am is what I say

### **V2**

I'm a dissenter, that's what's at my center  
If I were inventor, I bet I could make something good

Soldiers have lasers and Captain Kirk has phasers  
And officers have tasers, my gun would shoot just fun

Funny I should mention that, like it just came up in chat  
The bullets I'd invent for that I'd fill with play then blast away

Call me a fairy, whisper that I'm scary  
I might be contrary but don't you rain on my parade

## **Chorus**

### **V3**

I heart from the start by fate or chance is kept apart  
Is it work or is it art to live a life that feel alright

My clothes wrap up my soul. Pleasing you is not their role  
Being noticed not my goal. What's in style not worth my while.

Take it or leave it. You'd better believe it.  
I wouldn't want to waste the spit to explain what I maintain

Get real is the new deal. Spare me please on how you feel  
There's no bargain to be sealed. I go my way every day.

## **Chorus**
