

I Never Opened My Eyes

V1:

I never opened my eyes as wide as the night that I laid them on you
Who could imagine there's any surprise that my sight was wholly consumed
I looked to the left and I looked to right and I looked all around the room
I turned my back and I looked at my feet but my eyes were still full of you
I saw you again the girlfriend of a friend from across a crowded room
I sat on my hands and I shut both my eyes to try to keep my cool
For the first time in life I think that I'd like to break the golden rule
Cause your name is Taboo, Ya your name is Taboo

C:

I never opened my, I never opened my, I never opened my eyes
I never opened my, I never opened my eyes as wide to you
I never opened my, I never opened my, I never opened my eyes
I never opened my, I never opened my eyes as wide to you

V2:

I think I've opened my ears to hear a voice that's invading my sleep
Since meeting you I've developed the fear that my sleep will never be deep
I toss to the left and I toss to the right and I twist up in my sheets
My skin is all wet when I wake in a sweat from yet another dream
I'm not the same with desires to tame there's a tempest deep in me
Only your name burns as hot as a flame and it sears me in its heat
I go out in the night to ponder my plight and stare into the street
And the crickets steeped, Ya the crickets steeped

C:

V3:

I've started feeling my legs are like pegs from their nervous circling
I've worn a tread to the street from my bed from constantly pacing
I say yes and then no, should I stay should I go to be where you're being
But I know that you'd know my attendance would show the attractions that I bring
Show I stand on the lawn till way past dawn while quietly muttering
Am I but a pawn with my loyalty gone to a pretty good buddy
In the heat and the haze of a hot summer day It's you I'm remembering
And the cicadas zing, Ya the heat bugs zing

C:

V4:

I never opened my mind to find the truth of what a wise man would do
Right from the start I have followed my heart but my heart has seldom been true
Am I good man or am I a mad man or something of the two
I'd turn my backside on all of my life for the chance to be with you
What's in a name when desire takes aim and what do people do
Wait for a change or try to arrange a change between him and you

Could you be attracted oh are you attracted please please I need the truth
Is your name still Taboo, is your name still Taboo

C

I never opened my, I never opened my, I never opened my eyes
I never opened my, I never opened my eyes as wide to you
I never opened my, I never opened my, I never opened my eyes
I never opened my, I never opened my eyes as wide to you

TABOO ???
